

# Service Package

# Bronze Bronze +

[www.megger-service-excellence.com](http://www.megger-service-excellence.com)

- **Bronze service package: Extended factory warranty with useful additional services**
- **Bronze +: The same as Bronze package plus product calibration service**

For every Megger tester, we guarantee first-class workmanship using the best materials while your tester is used under normal operating conditions and properly maintained.

With a **Bronze** and **Bronze +** service package, you can extend your warranty beyond the factory standard.

A **Bronze +** package expands the basic package to include a calibration service at our Aachen factory, which aligns the product with factory standards. It can be selected annually or biannually each time. Bespoke solutions are also available.

This allows you to keep your service operating costs under control at all times and to plan optimally.

- **Online access to device information such as factory and calibration certificates, operating instructions, WEBINARS, etc.**
- **Direct support access**
- **Your product is recognized via the QR code\***
- **Local authorized service centre**
