

Service Package Gold

www.megger-service-excellence.com

■ Gold service package: Seminars and Training

Our products are designed so that you, the customer, can use the equipment as soon as possible.

Our technical world is demanding and constant personal improvement of skills has therefore become mandatory to meet the daily requirements.

Megger therefore offers technical training at the Aachen and Baunach service centres in Germany. With a **Gold Service Package**, you can choose training for 3/5 years free of charge for up to 2 days per person (excl. hotel and travel). Regular training with our specialists is a great added value and allows you to keep up-to-date with various areas of technology.

Training sessions can be chosen from our Power Training catalog. The range of training courses is constantly being expanded and updated to suit the ever changing environment of the industry.

We look forward to meeting you!

- Duration: 3/5 years
- Discount on training prices
- Training in low and high voltage
- Training centres in Aachen and Baunach, Germany
- 6-8 participants per training session
